Themes

One of the central themes of Children Of Fate Hechos Consumados Oberon Modern Plays is the exploration of identity. The play follows the

journey of three siblings—Elena, Carlos, and Diego—as they navigate the challenges of growing up in a society that often marginalizes and stereotypes them. Elena, the eldest sibling, is a strong-willed and independent woman who struggles to find her place in a world that expects her to conform to traditional gender roles. Carlos, the middle child, is a sensitive and artistic soul who feels alienated from his family and community. Another important theme in the play is the examination of family and culture. The siblings are raised by their strict and traditional grandmother, who instills in them the importance of family loyalty and respect for their heritage. However, as they grow older, they begin to question the values and beliefs that they have been taught.
