As we eagerly anticipate the arrival of 2024, it's time to embark on a comprehensive journey through the seasons of the year. From the icy embrace of winter to the vibrant hues of spring, the balmy days of summer to the crisp air of fall, each season promises a unique tapestry of weather patterns, holidays, and events.

### Winter 2024 (December 21, 2023 - March 20, 2024)

Winter, the season of hibernation and cozy fires, descends upon us in late December. As the days grow shorter and the nights longer, temperatures plummet, bringing with them snow-laden landscapes and icy winds.

### Monthly Weather Patterns in Winter 2024:

- **December 2023:** Average temperatures range from 20°F to 40°F, with frequent snowfall and icy conditions.
- **January 2024:** The coldest month of the year, with average temperatures hovering around 10°F to 30°F. Expect heavy snowfall and biting winds.
- **February 2024:** Temperatures gradually rise, averaging 15°F to 35°F. Snowfall continues, but less frequently than in January.
- **March 2024:** The transition to spring begins, with average temperatures reaching 25°F to 45°F. Snowfall gradually gives way to rain or sleet.

### **Holidays and Events in Winter 2024:**
