

Butler died in 1940, at the age of 58. He is buried in Arlington National Cemetery. He is considered one of the most important figures in the anti-war movement, and his writings and speeches continue to inspire people today.

Legacy

Smedley Butler's legacy is complex and controversial. He was a decorated war hero, but he was also a outspoken critic of American imperialism. He believed that the United States was using its military power to exploit other countries, and that this was leading to unnecessary wars. He also believed that the military was becoming too powerful, and that it was a threat to American democracy.

Butler's writings and speeches helped to shape the anti-war movement in the United States. He is considered one of the most important figures in the movement, and his work continues to inspire people today.

However, Butler's legacy is also controversial. Some people believe that he was a traitor who wanted to undermine the United States. Others believe that he was a visionary who saw the dangers of American imperialism.

Ultimately, Butler's legacy is up to each individual to decide. He was a complex and controversial figure, but he was also a man of courage and conviction. He believed that war was a racket, and he dedicated his life to fighting against it.
